BENEFITS

Nicole Frost
Copenhagen University

Nicole Frost Nyquist

Is an Associate Professor in animal nutrition at the Norwegian University of Life Sciences, Faculty of Veterinary Medicine in Oslo, Norway. She has her degree in veterinary medicine from Szent István University, Budapest, Hungary and her PhD in animal nutrition (focused on essential fatty acids and selenium in animal feed) from the Norwegian University of Life Sciences, Ås, Norway. Nicole is currently a resident in veterinary and comparative nutrition at the University of Copenhagen. Nicole's professional life includes working as a veterinarian for companion animals, being veterinary responsible for Eukanuba & Iams dog food in Norway, R&D manager for pig feed at one of Norway's three feed companies, and working with complementary feed, including fish oil supplements for dogs and cats.
